

Tenure-Track Assistant Professor Position in Analytical Sciences. The Department of Chemistry at the University of Iowa solicits applications to fill a tenure-track Assistant Professor position in analytical chemistry, effective August 2010. Applications are encouraged in all fields of analytical science. Scientists interested in the development of mass spectrometry to advance bioscience, environmental science, or material/nanoscience are particularly encouraged to apply. Our aim is to enhance interdisciplinary science on campus with a research profile that complements that of our current faculty. Links in the following website provide a description of current research activities and interdisciplinary strengths within the department and on campus:

<http://www.chem.uiowa.edu/news/analytical-search.html>

The Chemistry Department has appointed ten new faculty members over the past six years and recently completed a major building expansion and renovation that provides state-of-the-art facilities for both teaching and research. Highly competitive salaries and start-up packages are provided. Together with the College of Liberal Arts and Sciences, the Department is strongly committed to gender and ethnic diversity, as reflected in the strategic plans of the University, College and Department. Women and members of minorities are especially encouraged to apply. The University of Iowa is an affirmative action/equal opportunity employer.

Applicants should clearly demonstrate potential to develop and lead a nationally prominent, externally funded research program; commitment to excellence in teaching at the graduate and undergraduate levels; and the ability to prepare persuasive proposals. Candidates must have a doctoral degree in chemistry, or closely related field, postdoctoral experience and a promising record of research scholarship and productivity. Applications must be submitted at <http://jobs.uiowa.edu/>; paper applications will not be accepted. Application materials must include a cover letter, CV, academic transcripts, statement of teaching interests, and a detailed description of at least three research projects that exemplify your planned research program which should include a listing of the major instrumentation and equipment necessary to pursue each project. Please arrange for three letters of recommendation to be sent to chem-facsearch@uiowa.edu. Refer to requisition number 57117. Application review will begin by October 26 and will continue until the position is filled.
